

Director's Report for end of 2018

=====

In preparation now is a book which is intended to gather together previous publications :
Righteousness - in account ? and the appendix of Knowledge and Life. It is also intended to further
deal with the theory of righteousness being a 'commodity' which can be 'credited' as to a 'bank
account'.

For this reason the book is entitled Jehovah Tsidkenu emphasising that righteousness is (and only
ever can be) 'of God'. For it is the Lord - himself - who is 'our righteousness'.

This book may, it is hoped, also encompass the subject of the containment of sin. Otherwise, a further
book would be required.
