

Accounts are fully reported and up to date with both HMRC and to Companies House.

During the last Reporting and Accounting Period (september 2016 to september 2017) I have been working fulltime in Gloucestershire, mainly contracted as a Security Officer to the Gloucester City Council project which houses homeless families and individuals.

I have in mind a further book 'The Containment of Sin' which would gather various subjects from the other books and which would add more. But for the present time, I feel I am best occupied with Security work.

The kind of work I do enables me to study and I am advancing my knowledge of the Greek language insofar as it is necessary to understand more fully the words of the apostles.
